General Report Comments: I, Elani arrived at the property and met with Teri Rogers who was present at the time .

She was friendly and eager to take me to the back where Ori was. We went through and I saw she seperated Ori from the male dog. She said one pup died as she laid on him. She os still very thin. Teri then told me she came to the SPCA on Monday to get the dewormer for Ori and the pups . She also showed me the bag of food she bought for Ori and told me that she is feeding her now twice a day.

She said her mother only gets paid this weekend to buy the birds food. But she did clean the cage of the ringnecks and their bowls very well.

Teri was eager to learn more and think of ideas to get Ori warm and back to normal . She said she will save up for sterilization as well. I then told her I will come back in a months time to see whether Ori has gained weight. I also informed her about giving raw pig pancreas as two veterinarians in the past told me to do this to get the gut right.

She agreed for me to come back within a month to check on Oris weight.
