CHECKLISTS

General Report Comments: Sheldon and I, Elani arrived at the property and found to ladies sitting outside. I saw two kennels but no dog. I introduced myself and explained that I am there to check on Oortjie and heard that she is being chained.

I saw the chain around the tree with her collar. I then asked the owners why they chain her. She claimed that Oortjie doesnt jump the fence bit digs under it and gets out. She said they tried closing the gaps with rocks. I saw evidence of them stacking rocks around the fence areas that are lifting or has holes. At this time her husband took Oortjie for a walk on the farm.

I explained why its important to place the collar on Oortjie incase she runs off . Their house is literally on the corner of Janvan Toebeeck and the N 1 highway.

Idi understood everything I said and said they will try their best to close the fence insted of chaining her. I did also explain how to build the running chain incase they need to.

Case closed.
