General Report Comments: I, Elani arrived at the property and met with the kids and grandma named Lena Lekay. I explained to them why the dog should rather be on a running chain than a static chain. This static chain is long enough for the dog to jump on the kennel and then over the wall and hang itself.i told them as much. I then explained how they can build a running chain as they have most materials except the wire or cable. The dog had water, shelter and they placed a bike tube around its neck as a collar. I also showed the children at 11 Pont str this to get a few ideas.

I issued a warning to:

1) Provide Cena with an adequate running chain to prevent unnecessary injury within 7 days.

Lena signed the warning.

To follow up within 7 days.
