Inspector:	INSPECTOR ONE

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	2025-07-16
Comments:	Malak arrived at the SPCA in order to speak to me.I greeted him and introduced myself and I explained to him that we do not place animals at homes for security.He then informed me that it was not for security as he had written on his application. He then showed me that his home is attached to his shop and Brock would be living there with him.He then took out his phone to show me the layout of the home.I then saw that there was some rubble laying there and I told him that he should clean the yard first then we could consider the homecheck.He then mentioned that he would only be able to clean tomorrow as he's very busy today and I told him it's okay. I then spoke to liz and she agreed. To follow up on Wednesday to see if he had sent any pictures of the yard .
