Type:	CASE DISCUSSION NOTE
Follow-Up Date:	
Comments:	Contacted Malak via Whatsapp. He sent two videos for his premises but mentioned again that he will use the dog for security and his 3 workers stay on the premises and not him himself. His gate also opens to the road which poses the risk of the dog running out. "Unfortunately we do not adopt dogs out for the purpose of security on a business premises. It is also risky as the dog can run out if the gate opens and closes as the parking lot is not separated from where the dog will be. If you wanted this dog as a pet, we would've considered the application and work with you to rectify some of the issues seen. Thank you so much for applying but I regret to inform you it has been rejected. Kind regards" NFA
