General Report Comments: I,Hugh arrived at the property and saw Ashlene sweeping outside .She then went inside and called silka as I was getting out.I then greeted Silka and asked her if she had got the notice to comply.

She said yes and she already started coming up with excuses.I then explained to her that this had been coming on for months now as she had mentioned they are not working at the moment.I then told them that they have a responsibility when taking on animals.I also asked why she had not went to the mobile clinic and she mentioned it was raining too much.I then told her how important veterinary treatment is and that the dogs can be confiscated due to contraventions of the APA .

I then asked her about the hazardous and parasitic materials that still resides in their yard and she told me they don't have money to pay a gardener.I then explained that in this time they could have made progress by themselves and she seemingly understood.I then asked them If they would be able to get things cleaned in 6 days as Elani is the only one who can get a court order.She then mentioned that they would clean the yard by Friday.

I then issued notice to comply 025 to:

-Ensure to clean the environment the dogs are living in within 6 days from hazardous material and parasitic conditions.

To follow up next week Friday if non compliance to obtain court order .
