General Report Comments: Magrieta Kruger.

Elani and I, Hugh arrived at Magrietas home and greeted her as we have been there before. We could then see 3 dogs on her property and all of them were severely emaciated. We then spoke to her and asked her whether she had any food for them She then mentioned that she only owns the 2 dogs which was both emaciated and the other had an injury on the nose. She then told us where the dog lives who has an injury on its nose. I then asked her where the dogs water was and she had none. I then asked her to immediately fill up the water bowl which she then did.

Elani then issued warning 165 to:

- Provide your dogs with adequate food twice a day(bobtail puppy).
- Provide your dogs with dewormer and tick/flea(Nexguard) within 7 days.
- Ensure that your dogs have access to clean water at all times.

Mishaan Lottering.

Elani then went to Mishaans home and left warning 156 on the door to:

- Provide your dog with clean water at all times.
- Provide your dog with adequate food twice a day(prefer puppy food).
- Provide your dog with veterinary treatment for injury on its nose and with dewormer within 7 days.
- Provide your dog with adequate shelter(three sided, waterproof roof, raised flooring) within 7 days.

Cindy Faro.

I, Hugh went to the property and saw the dog who was the main culprit in the complaint. I then greeted the owners as we have been there before as well. I then saw that the dog had 9 puppies and I asked them whether they want to keep all the dogs as they have 12 dogs in total now. She then mentioned they gona give the dogs away and a short while after Elani joined me. We then explained to them the mobile clinic conditions and they seemed like they would attend the mobile clinic. I then asked for the dogs water bowl and it was empty. I then told them to fill it immediately they then did so. I then asked to look at their food that they have. We then saw that the dogs were a bit under weight but has dog pallets. We then requested they get puppy food.

Elani then issued warning 157 to:

- Provide your dogs with adequate food within 7 days(preferably puppy food)-do not feed potato peels, pap and bones.
- Provide all dogs with clean water at all times.
- Provide all dogs with tick and flea, dewormer within 7 days.

To follow up in 7 days.
