ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Roundworm
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: I, Elani arrived at the property and met with the owner of the dogs. I saw that they had another dog that had ringworm. I addressed this immediately and the woman said she consulted WAHG and they told her what to get to help treat it. She showed ne the ointment she administers.

They also have two cats and two rabbits.

The animals can go in and out of the house with a large flap in the door. They all had permanent access to food and water.

Each rabbit had their own room in which they were free roaming. They had bedding, water and food.

Skye was never sterilized due to having epileptic fits and it is too risky with her age now as well and female rabbits are also a risk. Luckily they have two females whi wont breed extensively.

I yold Amanda to keep an eye on the interaction between Piper and Sky and also to keep an eye on roundworm and consult a vet of necessary as it is highly contagious. Her animals foes receive Bravecto.

They have an uncovered pool that is enclosed with gates

Amanda is also a pastor and would be at home most of the time to keep an eye on the dogs.

Home check passed.
