General Report Comments: I, Elani arrived at the property and met with the husband and wife. They have a very large double story house with 5 dogs and 2 cats.

The house was clean and equipped with pet gates everywhere of where they should not enter. All the dogs had jackets on. There were water, food and cat litter trays present throughout the house.

They have a large back yard as well and keep the doors open for them to go in and out. They have several beds throughout the house and have couches which they could lie on.

They use Brackenfell Vet.

The owner explained that she rescued the mom dog and pups and raised them. She got a home for most of them and found out that one of the adoptees surrendered the dogs to us and therefore wants Teddy back.

Pre home check approved.
