| Type:           | COLLECTION - ANIMAL BROUGHT IN FOR TREATMENT / STERILISATION                                                                                                                                                                         |
| Follow-Up Date: |                                                                                                                                                                                                                                      |
| Comments:       | Collected Jack Russel from the Old Apostolic Chuch. His right leg is cut off and semi healed and his left jaw is broken but the dog is in good condition otherwise. We took her to WAHG to see of they can fix the situation. K27/30 |
