Inspector:	INSPECTOR ONE

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	
Comments:	Nicolette and her husband Brian pitched up to claim Ceasar and discuss the way forward. Hugh recorded the conversation. They filled out the claimant part of Ceasar. I then explained why and hiw they contravened the Animals Protection Act 71 of 1962. Nicolette apologized for the things she said the previous day and how she acted. I also showed them the medication Ceaser received after being by the veterinary clinic. Nivolette then asked what are their options. I gave them the option either they surrender the dog for euthanasia or I will prosecute them and take them to court. The husband then immediately said he refuses to surrender his dog and will call his lawyer and walked out. Nicolette then said she has children and doesnt want to go to jail. I explained again why it is better as her dog is suffering and not eating by us. She then signed Ceasar over for euthanasia. She then asked whether she could see him. We agreed and took her and her husband to see Ceaser. Ceaser was still in the open crate and even growled at them. The owners complied yo my request. Case can be closed. NFA
