Comments:	Elani and i,Hugh arrived at the business. We then pushed the buzzer and they let us in.We then went inside and the anderson team came outside to greet us. We then introduced ourselves and they said they will speak to us on Monday with what they plan to do by then.They then took us around to see the cats and we could see the cats were slightly friendly. To take lots of cat carriers and cat traps incase we cannot handle cats.
