General Report Comments: Sheldon and I, Elani arrived at the property to look for the pup stuck in a drain.

We called out and received no answer when the neighbour from across the street came to us and told us that he got the pup out of the drain.

We wanted to see whether the dogs are okay. He then called out and said we must come in and check. As we were looking at the general conditions of the puppies, Juanita came outside and we explained why we were there.

There were 7 puppies and the mother dog has a kennel, food and water. All of the animals were also in good condition.

She then said she wants to sterilize her dog so I gave her a pamphlet with our contact details on it. I also educated her to think about getting mesh to fasten on the bottom of the gate to prevent the pups from escaping.

No contraventions of the APA was observed.
