General Report Comments: Elani and i,Hugh arrived at the property from a different direction .We then called the manager as there was no employees there at that moment as we needed to gain access to try a different approach.

The manager then mentioned employees are unloading a truck in a different site and we should reach out to them there .We then went to their other site and got in touch with a employee named Zaine.He then told us to go to the warehouse and he followed us.

We then gained access through him and we saw the properties roof was large .The roof was also not stable enough for us to walk on .We then called drakenstien for a cherry picker and they came but it was not adequate enough for me to gain access to the roof.

They then sent someone with a adequate ladder and we could gain access to the roof.I then climbed up and saw the cat in the gutter.I then grabbed the kitten and made my way down the ladder.
