CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	No ***	Wounds on legs and overgrown hooves
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Wounds on legs and overgrown hooves
CONFINEMENT OF ANIMALS	Caged - adequate space	Farm animals

General Report Comments: Hugh and I, Elani found the farm where the donkey is kept. It is part of Leeuw Rivier. We asked the workers about the owner of the donkey who we believed to belong to Retief. They then advised us to speak to the farm manager. We then spoke to the farm manager and he told us that the donkey belongs to Matthys and showed us where they stay. We then went to the house and met with Matthys wife called Ronel Joubert. We explained that we are there for the donkey. She said they are aware of the wounds and that the flies do not stop. They bought a flymask for the donkey which he had on and two topical wound products to treat it with. We then told her we will go and have a look and come back to her. We went to observe the donkey in the field and noticed he had bloody open wounds on all four legs. His hooves were also overgrown. We went back to give her the feedback. She admitted that his hooves were done a long time ago. I issued a warning to:

- 1) Your donkey has open wounds on all its legs and its hooves are overgrown.
- 2) Provide the donkey with adequate veterinary treatment and grooming/trimming of hooves within 6 days.

Ronel signed the warning and said she will keep us updated.

To follow up next Monday.

ACTIONS

Warning Issued	175
