General Report Comments: I, Elani arrived at the property and met with the family. They have two dogs and one cat that are all female.

The border collie has three legs as she has been mauled by a staffie and the other dog is very old . They got their cat in a truck load and decided to keep her. All of their animals are sterilized.

They have kennels outside and it is a large corner house. There is a cat flap for the cat in the door.

Inside multiple beds were seen for the pets and they are allowed on the beds and couches. Owner grew up with dobermans and that is why she wants Brownie.

I did explain the history of Brownie to her and said that a meet and greet is crucial as all of the animals related to this case are females and that might cause havoc. I also said we will test Brownie with cats.

All animals sleep inside. Illona work from 9 to 5 but on Thursdays she works from home. She has two teenagers that are also mostly home.

They make use of several veterinarians including Tah Bellville , Kuilsriver Hospital and Brackenfell Hospital.

Illona will bring their dogs for a meet and greet on Saturday between 10h00 and 11h00.

Pre home check approved if all goes well.
