CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Elani and i,Hugh arrived at the property.We were then greeted by Peegram Carter.We then introduced ourselves.

We then spoke to her and she explained what was wrong with the dog ..She also mentioned she gave the dog bones.We noticed the dog was sneezing and groaning.We then suggested she sign over the dog which she refused.She then asked we take her to the animal hospital which we complied with.

We arrived at the animal hospital and Dr.Barry helped her he inspected the dog.He then informed her to check him out over night.He also mentioned the dogs teeth root is exposed it needs to see a dentist aswell.The grooming also needs to be attended to.She then agreed.

We then left the animal hospital and Elani issued warning 178 to:

- Refrain from giving your dogs bones.
- Your dog(Essie)appears to be choking/sneezing,the teeth are exposed and she is heavily matted.
- Provide Essie with veterinary treatment within 6 days.
- Provide Essie with grooming within 6 days as thia can cause parasitic conditions.
- You have the option to surrender the dog to the SPCA.

To follow up on Wednesday

ACTIONS

Warning Issued	178
