General Report Comments: Inspector Elani and i, Trainee Inspector Hugh arrived at the property. We then called from the outside and at first nobody came outside. We also could not see Bingo from the gate and after approximately a minute of calling at the gate Bingo came around the corner.

We then at first glance could see he was in good condition. The owner then came outside as well and we greeted her. We introduced ourselves and explained that we were there to do a post homecheck on Bingo. She was very welcoming and allowed us access.

Upon entering the gate the owner explained that Bingo usually lays down where she decides to work thus he did not come to the gate at first because he was with her as she works from home. We then understood and walked around the front part of the yard and we could see that it was clean.

We then walked to the back of the yard and we could see that there were toys laying around to which the owner explains that their daughter usually plays with Bingo in the evenings. We then walked around the back area and she showed us the shelter as well as the water. We also recommended that she get a larger water bowl for Bingo as the warmer days are approaching and Boerboels usually drink a lot of water, but the current bowl is also adequate.

The owner informed us that her husband walks Bingo at least once a week. They also feed him Montego classic.

Overall Bingo looks well taken care of and loves his owners.

Post homecheck approved.
