Comments:	I arrived at the property as Jason (Farm worker) showed me and met with Ms Franke who is the owner of Marley that they want to surrender due to skin condition. Everyone staying there informed me that they cannot find the dog. We all looked for the dog and called him but he was not there. I then gave an information pamphlet to Ms Franke to contact me as soon as they have the dog and ask the owner of the farm to possibly help bring the dog in to us. NFA until further notice.
