General Report Comments: Elani and i,Hugh arrived at the property.The owners mother opened the door for us and we entered the property.

We did a walk through and all animals were in good condition except for one cat named Beckham .

The owner claimed that the cat had tested positive for FIV at the animal hospital but is on medication.She strongly thinks about euthanising the cat and testing the rest of the cats.

We approved the post homecheck but owner will call us to book the tests for the 3 cats.
