Comments:	I collected Fynes and her three pups for surrender and Vlooi and Meide for sterilization. The dogs had ticks and skin conditions. I then asked Dr Gouws to look at them for me to determine whether they are healthy enough to sterilize. The one had chronic ear issues which are very painful and takes long to fix and the other has biliary. She recommended euthanasia. I then decided to donate nexguard spectra for the remaining dog and dip. Hugh agreed to go back to inform him about euthanasia.
