Inspector:	INSPECTOR ONE

Type:	CASE DISCUSSION NOTE
Follow-Up Date:	
Comments:	Eduanne arrived at the SPCA. I informed him about the complaint regarding squirrels he rescued and a comment he made that he will feed them to the snakes. He immediately knew about this and removed the post from his facebook. He claimed to me that he gave the squirrels to someone who is willing to foster them until they are old enough to release. I explained the legalities around Cape Nature permits etc and told him he is can bring the animal to the SPCA as well if its a wild stray or exotic wild animal . He understood this. To prove to me that he did not feed the baby squirrels to his snakes , he video called Mrs Holland who is caring for them. See attached video. She is in possession of two baby squirrels and took the to Vetscape to be assessed . They are alive and well. They were picked up in Parel Valley and will be released there when they are old enough . Mrs Holland stays in Franschoek. Case closed as we received confirmation that Eduanne does not do live feeding. I have also previously been to his house where he showed me that he buys frozen animals to feed his snakes. NFA
