General Report Comments: Hugh and I, Elani arrived at the property and observed the two swimming ponds for the geese and ducks to see whether they cleaned the ponds water. We observed the one by the entrance, we did not see built up on top of the pond and also saw a pipe exiting into the pond with clean water. We then drove to the bigger pond where most fowl are during the day. There was also a pipe with fresh water busy running into the pond. The ponds were cleaned very well. We then wanted to go to Karen to talk to her about our findings when a man approached us. This was Peter Dawsin and he confirmed that he is the animal caretaker and the that Karen is not in. We introduced ourselves and thanked him for his compliance.

No contraventions of the Animals Protection Act 71 of 1962 were observed.
