General Report Comments: Hugh and I, Elani arrived at the property and called the complainant to give us access to the complex. He said he has a video of the incident.
We went inside and looked whether anybody is home. Nobody answered the door. We saw the two dogs in question through the side gate. We tried looking for a tortoise but we did not observe any.
We then went to the neighbours and found number 12 at home. Michelle the domestic was there and called her boss for us to speak to. We explained the situation to him and he agreed that we could look over the wall to see whether we can see a tortoise or any sign of an animal being attacked. He allowed us access and provided us with the contact details of the owner of the house in question.
We called the owner named Johan and he was very defensive on him not owning any tortoise etc. He wanted to know who complained and we could not provide him with those details.
We left and asked the complainant for the video as evidence. He sent it to us and we see the same two dogs attacking a tortoise but could not determine whether it was alive.
We then immediately called Johan back and set up a time to meet and confirm where the tortoise is. He agreed with this.

To meet within 30 minutes.
