General Report Comments: I, Elani arrived at the property and found Rosswinn, the 17yo son was at home. He could not give me access to the property as he is a minor and his parents was not home. I could see from the gate that the dog was on a static chain but had access to shelter and a bowl of water. I asked the son why the dog is on a static chain and he claimed the dog destroys the garden. They do have an enclosed property where the dog would not be able to escape.

I did not observe any animals with mange but noticed a lot of dogs at 6 Kumsberg and suspects the complaint was about them.

I issued a warning to:

- Your dog is on a static chain which does not afford her adequate space . Your yard is enclosed which makes this unnecessary chaining.

1) Ensure to loosen her/unchain her immediately as there is no reason for chaining her up other than destroying the garden.

2) I suggest enclosing the garden by means of making a gate (e.g. pallets, board). Ensure to do this within 48 hours.

Rosswinn accepted the warning. To follow up on Monday.
