General Report Comments: I, Elani arrived at the property and met with multiple people on the premises. I saw that they had many dogs with minor mange issues and asked them whether they have a dog that looks really bad. They hesitated and I said I am there to help them.
This is when Bernard came out and showed me his dog which is a pitbull with severe mange chained to his house on dirty bedding. The dog looked scared and sore.
I then explained to them the severity of mange at this level and that it can go over to the other dogs they own and told them in my opinion its better to surrender it. The owner agreed to this and signed Layla over.
I told them I will return and try to help them as best I can upon return. I also gave them our clinic pamphlet for future reference.

To return when going to 5 Kumsberg
