General Report Comments: Elani and i,Hugh arrived at the property. We saw one of the tenants on the outside and we asked her about the dogs.She mentioned she will call her daughter as it is her dogs and her daughter came outside.

They allowed us access and we inspected two dogs. We encountered a black and brown female mixed breed which was the mother of the puppies who were surrendered over the weekend. We could see that she still had alot of milk due to her puppies being away. We explained to them what implications could occur if the milk does not dry up and that they would need to squeeze the milk out of her breasts.They understood.

The other dog seen was a brown male dog named bonzo.He had gotten out and been in numerous fight but all his wounds were healed.We educated them on providing the dogs with adequate fencing as this can then prevent him from being in fights.

Overall both dogs look in fair condition and they have tick and flea treatment. We gave them our clinic pamphlets and left.NFA
