General Report Comments: Elani and i,Hugh arrived at the property.A security on the property directed us to the entrance of the house and saw the dog named Basie in the back limping.

We went to the entrance and we were met by the owner.We greeted him and he mentioned he will call his mother.She came outside and we explained to them that we would like to see basies living environment.They took us to the back where we went inside and we saw he had a whole room just for him.There was water and food put out for him aswell as bedding.

We approached the entrance and explained that the dog would need to be checked out by a veterinarian.They understood and we gave them our mobile clinic details. We also explained they should get the dog there we will discuss with veterinarian so there are no charges involved as they seem they were struggling financially.

Elani issued warning 216 to:

-Provide Basie with veterinary treatment within 7 days.His right hind leg appears to be injured as he cannot step on it.

To follow up next wednesday.
