CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Inspector Elani and I, Trainee Inspector Hugh arrived at the security company .We met with Louis who is the manager of the wellington dogs and all branch.

He allowed us access and we went inside to his office .We discussed he's records in his office and we asked whether he has a disaster plan.He made copies of the disaster plan and all the records we needed to conduct the inspection.

He informed us that he would be sending all the rest of the documents via email.

We also discussed environmental enrichment with Louis and he showed us he has hooves but the veterinarian would not advise giving hooves unsupervised due to the dogs eating them.The dogs have no bedding due to them eating the bedding Louis stated.

We asked him about rodent control and he informed us that he has rat boxes in the food room .We went to the area where his food is being kept and he showed us the rat box.They also have two feral cats on the premises who is sterilized according to Louis to help with rodent control.

We also discussed the exercise camps and he accompanied us to the camps .We took measurements of the exercise camps,the large camp was 13x13m and the smaller two exercise camps was 5x13m.We noticed that there were no adequate shelter in the exercise camps and the grass was overgrown.We educated him on this and he mentioned he would fix it immediately .

We stepped outside and he confirmed again that he would send the rest of the documents via email.We left.
