General Report Comments: Hugh and I, Elani arrived at the property. There was a young man on the front porch. We asked him to call his mother which he did. Ilene then came out and we informed her why we are there. She allowed us access to the property. She has a normal sized house with a wonderful enclosed back garden. She claimed to have moved in about a month ago from Velddroft and doesn't know much about Wellington yet. She has lots of animals which have access inside and outside the property. They had access to water and none of them were underweight. We then assessed the older dogs and found two of them need Nexguard as they have a skin condition. We then educated Ilana about everything we offer and where she can go to in Wellington such as, WAHG, our Mobile Clinic and sterilizations. She was eager to make use of our mobile clinic and sterilization opportunities. We additionally gave her our Clinic information pamphlet for future reference. When asked what she feeds her dogs, she said she buys Bobtail and when things go rough she mixes it with pap and meat. We then educated her on what to feed and what not to feed when it comes to house meals. She was extremely grateful for our guidance.

To see whether she comes to our mobile clinic next week as we saw that Milo is in need of care especially for his ears.
