General Report Comments: Hugh and I, Elani arrived at the property after inspecting number 6 kumsberg road and saw that the neighbours had a dog on a static chain with a chain around its neck.
We went to this property and introduced ourselves yo Delee. They have two jack russel type dogs on the property that is free roaming and can go wherever theyd like.
Then they have Buddy who is still very young but stick on a static chain. His form of shelter is a verand and a structure built for him without sides. We explained that if there is wind and rain that he will still get wet. The reason they tie him up is because he escapes the property as there are multiple people staying here and fights with dogs in the road. We also explained that he would be more relaxed if he has space to run as they do not walk with him.
We then issued a warning to:
Buddy is on a static chain without adequate space, without an adequate collar and shelter.
1) Provide Buddy with an adequate collar within 7 days (belt, piping around neck, etc)
2) Provide adequate shelter for Buddy within 7 days. (Raised flooring, three sided and water proof roof)
3) Provide Buddy with an adequate running chain within 7 days.

Delee signed the warning and we explained everything in detail.

To follow up within a week.
