CONFINEMENT OF ANIMALS	Static Chain - inadequate length ** Keeps coming outside.

General Report Comments: Luciano and i,Hugh arrived at the property. We called from the outside and Letsia came outside.I explained to her that we had recieved a complaint regarding a dog on a static chain.

She showed me the dog and i observed a brown male dog just under a year on a static chain with a bucket as shelter.I educated her on building a running chain and getting adequate shelter.

I asked her whether the water bowl gets knocked over and she explained that he does.I educated her on putting it in a tyre and she agreed.

I asked her about sterilization and she said she would first discuss this with her family.

I issued warning 041 to:
-Provide Killer with a running chain within 7 days.
-Provide Killer with adequate shelter within 7 days.
-Provide Killer with water and place within a tyre to prevent knockover.

To follow up next wednesday.
