CONFINEMENT OF ANIMALS	Caged - adequate space Birds

General Report Comments: Inspector Elani and i, Trainee inspector Hugh arrived at the petshop .We went inside and greeted Gerhard.Elani asked him whether he had recieved the warning and he confirmed he has.

He agreed that we do a walk through as he had complied with everything asked on the warning.

He accompanied us and we saw that he had inserted newspapers and environmental enrichment in the bird enclosures.Species were seperated and adequate bowls were inserted.The cages were clean and this was pleasing.

We moved to the fish enclosures and he had opened the bottom enclosures so it could be visible .He added sponge to the filters and this prevents fish from being sucked into the filters.The enclosures were free from excess algea and dust/cobwebs.

We informed Gerhard that we appreciate his co-operation and he complied with all demands we asked for.
