General Report Comments: Luciano and i,Hugh arrived at the property. We called from the outside and Darren came outside to allow us access.

I explained to him the nature of the complaint and he agreed to show us around.I went to the back and observed a brindle and white male pitbull on a static chain in a built enclosure with shelter.I saw the area was extremely dirty with excess faeces and hazardous material.

I explained to him that power breeds need to run as he explained edge jumps the enclosure and scares the students living there.

I told him that he needs to build a running chain with edge still having access to shelter.He needs to get an adequate collar and edge should always have water.He should also clean the enclosure and he understood.

I,Hugh issued ntc 047 to:

- Provide edge with an adequate running chain within 7 days.
- Provide edge with a adequate collar within 7 days.
- Clean edges enclosure within 7 days(excess faeces and hazardous material)
- Provide edge with potable water immediately.

To follow up next wednesday.
