General Report Comments: Shelden and i,Hugh arrived at the premises after asking the people in the community. We walked up to the premises and there were three woman sitting inside.One of them was seemingly drunk and started yelling at us that we should take her dog aswell but informed us that se does not love on the premises which im trying to inspect.

I stated to her that im currently here to speak to the owner of the premises and she guided me to her.I greeted her and asked her whether there were any animals on the property.She then asked one of the male tenants to accompany me and he showed me a black female dog who was in fair condition.

The owner of the property informed me that she was not the owner of the dog but the owner of the dog takes good care of her which i could see.I asked them few questions and they showed me her shelter and water.I asked that they clean the area where her shelter is placed and they cleaned it immediately(took a picture but its no longer on my phone for some reason).I requested to see her food and they explained to me that the owner locks it in his room.

Overall the living area of the dog is clean and is in fair condition. NFA.
