General Report Comments: I,Hugh arrived at the property and called from the outside.A neighbour came over and mentioned that they had left the property but his wife will call them now.

Two woman arrived and they allowed me access to the property.I asked them why the female boerboel was underweight and they mentioned that she has pups and after this she loses weight.I educated them on sterilization as they mentioned she has pups and is so overprotective towards them that she smothers them.

I educated them on deworming and actually getting a dog food with more nutritional value in it.I also educated them how many times to feed them a day.She bought 6 deworming pills and showed them to me.I explained to her that i would be back in three weeks to see whether the dogs have gained weight.But i will go back within 7 days to see which food they had bought. To follow up next tuesday.
