I, Hugh arrived at the property and Collin came outside. I greeted him and explained the nature of the complaint. He immediately became worked up and I explained to him that I am just here for the animal.

He allowed me access and I saw Rex a unsterilized male on a static chain. I took a closer look and saw that he had shelter but it was not raised flooring provided. I asked Collin whether he had any dog food as I could see Rex was underweight and he mentioned he did not have any at the moment.

I saw Andrews dog Chico and noticed that he was slightly underweight. I asked him whether he had any dog food and he mentioned he did not have any at the moment. I educated them and explained to them what I need them to do for me and they understood.

I issued warning 122 to:
-Provide Rex and Chico with adequate dog food within 7 days.
-Provide Rex with adequate shelter within 7 days(raised flooring)
-Provide Rex with an adequate running chain within 7 days.

To follow up on Friday.

Here's a polished version of your inspection report:

I, Hugh, arrived at the property, and Collin came outside. I greeted him and explained the nature of the complaint. He immediately became agitated, and I explained that I was there to assess the welfare of the animal.

Collin allowed me access to the property, where I observed Rex, an unsterilised male dog, secured on a static chain. Upon closer inspection, I noted that Rex had access to shelter; however, the shelter did not have raised flooring. I also observed that Rex appeared underweight. I asked Collin whether he had any dog food available, and he advised that he did not have any at the time.

I also observed Andrew's dog, Chico, who appeared to be slightly underweight. I asked whether there was any dog food available for Chico, and I was informed that there was none at the time.

I educated both Collin and Andrew on the required standards of care and explained the corrective actions that needed to be taken. They acknowledged and understood the instructions.

Warning 122 was issued with the following directives:

Provide Rex and Chico with adequate dog food within 7 days.
Provide Rex with adequate shelter fitted with raised flooring within 7 days.
Provide Rex with an adequate running chain within 7 days.
Follow-up inspection: Friday.
