General Report Comments: finalise and close the matter:

The name, age, and sex of both dogs.
Details of any veterinary treatment or medication they are currently receiving.
Photographs of the shelter provided for the dogs, as we did not enter the rear section of the property during our inspection.
During the inspection, we noted that the tan-coloured dog appeared to have a mild case of fly strike affecting her ears. We would appreciate it if this could be treated with an appropriate fly repellent, such as Shoo-Fly, or any other suitable veterinary product.

Overall, we found both dogs to be in fair condition. They do appear to be elderly; however, age alone does not constitute a welfare concern or support the allegations made in the complaint.

We would appreciate it if you could forward the requested information at your earliest convenience so that we may conclude our investigation.

Thank you in advance for your cooperation.

I will conduct a follow-up inspection within 7 days to determine whether Dr. Christo van Dyk has complied with Warning 123 and has submitted the requested veterinary report and supporting information.
