Report/Findings:

Went out to investigate the matter. Upon arrival we met Mrs. Taljaard and she allows us to enter the property. All the cats appears to be in a good physical condition. I told her that we just follow up to see if the cats were fine. She told me that she did get meds from a vetshop and that the cats are doing well. I ask

Report/Findings: medicine that she got for treatment. The med is called Pegasus anti-virbac which is a homeopathic antibiotic for use in viral and bacterial infections. She also told me that she wanted to start a rescue centre for cats in the area but the property owner does not allow her to. The cats diet consist of soaked puppy pellets and liver cubes which

Action taken: (ie warning, education, seize, etc) She mixed and gave them twice daily.

Report/Findings: I told her that starting a rescue centre is a big challenge and especially the area where she resides. She told me that when she moved in there 2 yrs ago there were only 2 females and a male cat which she took care of. According to her she is busy raising dogs for straying

Action taken: (ie warning, education, seize, etc) them as she does not have the money to sterilise them all.

Some as previously mentioned

Report/Findings: At present she has 26 male cats and 11 females of which 3 are heavily pregnant which she surrender to us. The one cat ran away. She also told me that she's not a boarder nor a breeder. I told her that if she were responsible that she would've made a plan a long time ago to get the cats sterilised at that time. She also told us that there are also other people in the area who owns cats which are not sterilised and she is also raising funds to get that cats sterilised. Follow up to be conducted within 3 weeks (1st June 2023)
