**INSPECTION CHECKLIST
RED MEAT ABATTOIR**

Abattoir name: ROELCOR

Physical address: 27 RAND ST, GEORGE INDUSTRIAL

GPS coordinates: _____

Postal address: SAME AS ABOVE

Tel No: 044 874 3057 Cell No: 086 625 7779

Fax No: _____ Email: adminregc@roelcor.co.za

MANAGEMENT DETAILS:

Owner (Name and surname): FRANCOIS STANDER

Cell No: 064 902 1555 Email: _____

Manager (Name and surname): RUAN IBERSOHN

Cell No: 083 422 6475 Email: adminregc@roelcor.co.za

Directions to abattoir: _____

Throughput (Low / high): HIGH

Warning issued: 5605 Photos taken: YES Videos taken: YES

Date of inspection: 19 SEPTEMBER 2024

Arrival time: 09:00 Departure time: 12:00

		Satisfactory		Comments
		Yes	No	
1.	Initial observation			
1.1	Are emergency contact details available on entry to the property?	X		
1.2	Are personnel available at all times?		X	DURING TEA BREAK NO ONE WAS PRESENT FOR OFFLOADING.
1.3	Is the registration certificate displayed in office / reception area?	X		(Check expiry date) ?
1.4	Are the outside areas clean and well maintained?	X		
1.5	Is there a Disaster Management plan in place? (fire, flood, power-outage, water shortage, etc)	X		
1.6	Are personnel familiar with disaster plans?	X		(How often are personnel refreshed?) ANNUAL
1.7	Is protective clothing available for visitors?	X		
1.8	Are facilities available for washing boots and hands at the entrance to the slaughter area?	X		
2.	Off-loading / handling			
2.1	Are vehicles species-specific?	X		
2.2	Is shading provided for pigs during transit?	NOT OBSERVED		(Pigs must be provided with shelter during transportation as per SANS 1488:2014 & 1469:2014)
2.3	Do vehicles appear to be overloaded?		X	(Overloading of vehicles is not permitted as per the APA and SANS 1488:2014 & 1469:2014)
2.4	Was off-loading observed?	X		(Vehicles must have non-slip flooring as per SANS 1488:2014 & 1469:2014)
2.5	Are ramps available for all types of vehicles?	X		(There must be ramps available to accommodate different vehicle heights)
2.6	Are there any spaces between vehicle and ramp?	X		(There must be no spaces between the loading ramp and vehicle – SANS 1488:2014))
2.7	Do ramps have a slope of more than 20°?	APPEAR TO BE		
2.8	Do ramps have non-slip surfaces?	X		(All ramps must have non-slip flooring)
2.9	Are ramps in suitable condition?	☒		

2.10	Are ramps free from protrusions, foreign objects, <i>etc</i> that may cause harm to the animals?	X		(Check for loose wires or objects lying around)
2.11	Are animals off-loaded immediately on arrival?		X	(Animals must be off-loaded as soon as possible)
2.12	Are personnel properly trained to handle livestock?	X		TRAINED, BUT DO NOT COMPLY
2.13	Are animals off-loaded quietly and humanely?		X	(No shouting, beating, - SANS 1488:2014) SHOUTING OBSERVED
2.14	Were any sick or injured animals off-loaded?		X	(Was emergency slaughter performed immediately if necessary and within the least possible time?)
2.15	Were any 'downers' observed in any vehicle?		X	
2.16	Are 'downers' slaughtered immediately?	N/A		(All downers must be slaughtered immediately where the animal is situated, <i>i.e.</i> on the back of the vehicle)
2.17	Are electric prodders used during off-loading? If so are they battery operated?	X		(Prodders may not be used on pigs or calves) WAS USED ON CATTLE.
2.18	Are any other types of prodders used? (Plastic piping, <i>etc</i> ?)		X	(These must not be used on the animals)
2.19	Are prodders excessively used?		X	(Should not be used if animals are moving forward and shall not be used on neck, face, genitals)
2.20	Is artificial lighting available for off-loading at night?	X		(Must have artificial light when animals are being offloaded at night)
2.21	Are prodders used on pigs or calves?	NOT OBSERVED		(Prodders may not be used on pigs or calves in terms of the Meat Safety Act)

3. Lairages

3.1	Are animals herded calmly, quietly and humanely?		X	(As per the Meat Safety Act and SANS 1488:2014 & 1469:2014) SEE ATTACHED REPORT
3.2	Are prodders used excessively?		X	(Should not be used if animals are moving forward and shall not be used on neck, face, genitals)
3.3	Are lairages constructed and maintained to avoid injury to animals?			TO BE DIS WITH INS SIGHN
3.4	Is flooring in lairages and races non-slip?	X		(Flooring of lairages and races must be non-slip surface)
3.5	Are lairages species-specific?	X		(Different species may not be penned together)

3.6	Are aggressive or fractious animals separated?	X		
3.7	Is shelter provided for small livestock?	X		(Small livestock must be provided with shelter, <i>i.e.</i> sheep, goats, calves and pigs)
3.8	Are cold water sprayers available for pigs?	X		(Lairages housing pigs must be provided with cold water sprayers)
3.9	Are lairages clean and well maintained?		X	PENNING NEW BATCH OF CATTLE IN A DIRTY LAIRAGE
3.10	Do all animals present have access to potable water?	X		(Each lairage housing an animal must have potable water available – Meat Safety Act and SANS 1469:2014)
3.11	Is there any overcrowding?	CONCERNS		(Overcrowding in lairages is not permitted and the numbers must be reduced - Meat Safety Act and SANS 1469:2014)
3.12	How long are animals rested before slaughter?	CONCERNS		(Must be rested for minimum 1 hour before slaughter – Meat Safety Act, 40 of 2000)
3.13	Are any dead animals observed in lairages?		X	
3.14	Are isolation facilities available?	X		
3.15	Is stunning box/area visible from lairages?	CONCERNS		(Stun box/area may not be visible from lairages)
4. Pre-slaughter				
4.1	Do pre-slaughter races provide a non-slip surface?	CONCERNS		(Pre-slaughter races must have non-slip flooring)
4.2	Are there lights in pre-slaughter race and stun box/area?	X		
4.3	Are races free of protrusions or foreign objects that may cause injury to animals?	X		
4.4	Is there any overcrowding in races?		X	(Overcrowding in races are not permitted and the numbers must be reduced)
4.5	Are there any animals left in races during breaks?	X		(No animals may be left in races during breaks – Meat Safety Act)
5. Slaughter procedure				
Cattle / Equine				
5.1	Does stun box provide a non-slip surface?	X		(Stun box must have non-slip flooring)
5.2	Is captive bolt pistol in good working order (open and check)	X		(Does bolt retract fully after firing? Must have 8 rubber buffers)

5.3	Is a back-up pistol provided?	x		(Back-up pistol in good working order should be available in case of an emergency)
5.4	Does the stun operator wait for the animals to be in correct position for an effective stun?	x		(Does he appear calm and relaxed?) Note: Kosher slaughter – cattle are not pre-stunned but must be post-stunned 20 seconds after being bled.
5.5	Is the stun effective?	x		(Check eyes for reflexes)
5.6	Does stun to bleed time exceed 60 seconds?		x	(Stun-to-bleed time may not exceed 60 seconds as per the Meat Safety Act)
5.7	Is knife suitable and sharp?	x		(Knife must be a minimum of 250mm)
5.8	Does bleed-out time take minimum 8 minutes before any dressing process begins?	x		(Animal must bleed-out for 8 minutes before any dressing may commence as per the Meat Safety Act)
Sheep, goats and pigs				
5.9	Does stun box provide a non-slip surface?		x	(Stun box must have non-slip surface)
5.10	Are electric tongs well maintained?		x	(Check for rust, loose contacts, etc. Tongs should ideally be sanded after every 10 animals or less if necessary) TONGS WERE NOT SANDED AT ALL
5.11	Are contact points long enough to penetrate the wool on sheep to ensure proper contact with the skin of the animal?	x		(Must have 3 points on each side) Note: Kosher slaughter – sheep/goats are not pre- or post-stunned.
5.12	Are voltage and amperage automatically calculated?	x		
5.13	Are pigs wetted prior to being stunned?	NOT OBSERVED		(Wetting pigs enables effective conductivity of electricity)
4.14	Are tongs placed in correct position in order to span brain?	x		(Not in eyes or across nose)
5.15	Is the stun effective?	x		(Check eyes for reflexes. Animals should not be blinking)
5.16	Does stun to bleed time exceed 60 Seconds?		x	(Stun-to-bleed time may not exceed 60 seconds – Meat Safety Act)
5.17	Is knife suitable and sharp?	x		(Knife must not have rough edges or be serrated)
5.18	Does bleed-out time take minimum 6 minutes before any dressing process begins?	x		(Animal must bleed-out for 6 minutes before any dressing may commence as per the Meat Safety Act)

Note: All livestock must be pre-stunned except for Kosher slaughtering. For other religious slaughtering, there must be an application for exemption to the relevant department. Such exemption certificate must be on display.

Veterinary details:Name: ANY VET AVAILABLE, NO SPECIFIC VET.
