**Report/Findings:**

The animals observed appeared to be all in good condition, no injuries or sickness observed. The area where

the animals were kept are well maintained and adequate water and food was visible. The animals we saw are

roaming free. We could not gain access to the rest of the farm and a follow up will be scheduled. T

Jurg were not available to take us to the area where the cubs were kept and they are apparently very strict on who are allowed to enter that area and who not.
