ANIMALS IN GOOD CONDITION	No *** dogs thin
VETERINARY PROBLEMS / HEALTH CO	Yes *** dogs appeared to have skin conditions

General Report Comments: I have observed three dogs and a puppy, which are a male Pit bull male white/tan kept at the back yard,dog appeared to be thin and also developing skin condition. A female black Pit bull with a puppy of +- two moths,the dog is thin and the puppy is developing skin condition. A female Pit bull white/tan underweight,shelter and water provided for the dogs.In speaking to the brother he indicated that he cannot look after the dogs anymore because the owner of the dogs who is his brother Mr Nilton does not stay in he property .He contacted the brother while i was there,the brother claims that they have been waiting for the food from AACL for the past two months ,the dogs are one street away from the AACL they can even walk accross.I also spoke the father telephonically who sound lke he wants the dogs only for Security as he claims he leav home early in the morning.Advised given to the owner to rather surrender the dogs to the SPCA but was turned down .A warning issued for the owner to take the male dog and the puppy to a vet for check up and provide me with a vet report,i have also indicated that they need to provide food for the dogs.Follow up to be conducted.

ACTIONS

Warning Issued 04562/04561
