CHECKLISTS

General Report Comments: I met with the owner of the cats and she showed me the house of the person who she suspect that might have killed her cat,which is direct opposit .I went to the suspect address but there are few shacks in the yard so it will be difficult to know who might have done it .There was no one in the yard,a warning issued regarding the allegation.I advise the owner to sterilize her remaining cats,and also to keep her cats in her yard.During my inspection i havent seen any of her cats.She will speak to her husband about sterilization.
