General Report Comments: I have observed a female Xlab black dog has a colour and a short chain on its neck but the dog was free in the yard during my visit. Dog appeared to be in good physical condition water and shelter provided, yard well fenced with the gate. A warning issued for owner to remove the colour and the chain, which he did while I was there. Owner was advised that the only time he can use a chain and a colour is when he is walking the dog.
