Veterinary problems / health concerns		
Note: Any concerns noted in this table must be explained in detail in the Inspector's report.		

Report/Findings: After our vet examined the dog (puppy) with a scratch on a leg which did not appear to be stab wound I then contacted the owner to get the full story. He informed me that he didn't see what happened on that day but he knew two of his neighbours has complained about his puppy. He also informed me that he doesn't have fence at his property because it is informal settlement. But his dog is still a puppy do bother or harm anybody. He also mentioned that the puppy was supposed to have gone to limpopo. He was then advised not to keep any pets if his property is not secured

Action taken: (i.e. warning, education, seize, etc)

Report/Findings: even if it is still a puppy, I also explain to him that he is the one that caused the problem on forcing his neighbours to accept his dog and some people don't love pets. I then asked him to send location of where he stays so I could have a word with his neighbour but was not keen. I then requested him to send location when he is home as he could not direct me.

F.U. I tried to call Mr Situlo for location with no availability and on 21 August 2025 I managed to get hold of him and he said he has been without data and his phone has been giving him problems. He then said we can close the matter and thanked us for our efforts.
