

Alcra Rescue Inspection

Facility: Alcra Rescue
Owner: Chanteze Blignaut
Address: 32 Turton Street Boksburg West
Contact Number: 0832512356
Date: 18th July 2025

Overview

I contacted Chantaze on 17th July 2025 to arrange an inspection appointment as the facility is in a gated community and access is restricted. She agreed to a 12H00 appointment on 18th July 2025.

On arrival, I was taken through the property by Chantaze. She explained that she has had a disagreement with some of her associates and she believes that the complaint is nothing but an effort to discredit her organization. She denied the allegations, and she is handling it with her legal team.

Facility

- Residential home separated yard.
- Back yard, front yard and inside the house used as areas for the different dogs on the premises.

Animals Inspected

- 2 x German Shepard cross, male puppies, tan in colour
- 4 x Jack Russell cross, male puppies, brown and white in colour
- 1 x Dachshund cross, male puppy, brown in colour
- 2 x Large American Bully, female, dark brown in colour
- 1 x Large American Bully, male, dark brown in colour
- 1 x Pocket American Bully, female

Findings

- All the puppies were in an enclosure that had been cleaned.
- None appeared to be sick and all were in fairly good condition.
- American Bullies were in the back yard area and are in good condition.
- All the areas with dogs were clean and water and shelter were provided with adequate space.

Action Taken

I did not find any problems that are, or appear to be related to the allegations. No contraventions of the APA were found at this time. No action necessary for now.
