To whom it May Concern

I trust you are well.

I work in 15th Ave in Boksburg North and there is a property right across from the complex where I work , I've been seeing a white and black looks like a pitbull pup, I'm truly xoncerned about the wellbeing of this dog as we have been told numerous times by security that the people that stays there is using drugs. The conditions of this property is horrific and don't think its safe at all for this poor pup, is it possible for a inspector to go and have a look?

The adress of this property is 15th Ave, Anderbolt, Boksburg North, number 61.

Kind regards
