General Report Comments: Upon arrival i met with ms October She granted me access to the property inside the property I saw Three Adults Dogs . three big kennels available for the dogs and water ,environment was clean.
The black and tan female dog that was at the Aws clinic is running aroun normal yes is underweight and has ticks but the went to the pet shop to buy tick and flea powder and the shampoo. I think she is not feeding his dogs enough because she is using a very small cup to feed his dogs. I then told her atleast to feed the dogs 3 cups for three times a day.
I then issued a written warning for the owner to take his dog to the veterinarian for assessment or possible treatment.
