

VETERINARY REPORT

To whom it may concern

Please find below the veterinary report for surrender no 40472, from 16 Miami Close, Portland.

ANIMAL DETAILS

Species: Canine

Breed: Pitbull

Sex: Male

Age: Adult

Name: Unknown, admin no 40472

Description: Black and white

EXAMINATION FINDINGS

On presentation, the animal has scars on the face, ears and all legs.

He had a low body condition score, of approximately 1.5/5 (normal being 2.5-3/5).

He was non-weightbearing on the left hind limb and the hock appeared to be mildly swollen.

There was also contracture of the gastrocnemius muscle.

There were open scars on the right hind leg with open granulation tissue, indicating healing wounds of uncertain duration.

COMMENTS

The findings are consistent with wounds from dog bite wounds and consequences thereof. The animal was also emaciated from chronic malnutrition and I believe that he was not being properly cared for prior to surrender.

Yours sincerely

Dr Stephan Spamer (BVSc)
Veterinarian
