

VETERINARY REPORT

To whom it may concern

Please find below the veterinary report for confiscated case no 35681, from Strandfontein.

ANIMAL DETAILS

Species: Canine
Breed: Husky Cross
Sex: Male, intact
Age: Adult
Name: Zimba
Description: Tri-color

EXAMINATION FINDINGS

The animal presented to me in what appeared to be a generally good condition, considering he was collected reportedly tied up with a short chain with no shelter.
The dog had an adequate body condition score of 2.5/5.
He was bright, alert and responsive, and did not appear to be particularly fearful on handling.

COMMENTS

Although the conditions the animal was found in as described to me are unacceptable for keeping an animal, the patient appears to be in good overall health despite this at the time of examination.

Yours sincerely

Dr Stephan Spamer (BVSc)
